German citizen — full EU work authorization, no visa required. Open to relocation to Germany and to remote roles.

PROFILE

Full-stack developer with a B.Sc. in Computer Engineering (2025) and one year of production experience building Shopify storefronts and digital archives at BusinessUp. I now build end-to-end web applications with React, Next.js, FastAPI, Supabase and PostgreSQL, including authentication, row-level security and browser-side encryption. Looking for a junior full-stack or backend role in Germany or the EU.

WORK EXPERIENCE

Independent Full-Stack Projects · Remote — 08/2025 – present

- Design and build personal web applications end to end: UI, REST APIs, data models and deployment.
- Implemented Supabase Auth with PostgreSQL row-level security for shared family budgets (Budget Buddy).
- Built browser-side encryption of text, photos and drawings with the Web Crypto API and an encrypted IndexedDB cache (Pin & Paper Journal).
- Developed a FastAPI + PostgreSQL event platform with private RSVP links and media storage on Cloudflare R2 (Luma).

Junior Full-Stack Developer · BusinessUp, Muğla, Türkiye — 07/2025 – 08/2025
Full-Stack Developer Intern · BusinessUp, Muğla, Türkiye — 07/2024 – 07/2025

- Built and customized Shopify themes and sections in Liquid, HTML, CSS and JavaScript for client stores.
- Developed the Atatürk Digital Archive, a large-scale archive with multi-filter galleries, PDF viewing and light/dark mode, using Shopify Metafields.
- Migrated legacy retail layouts to responsive Shopify themes.
- Improved page speed, SEO and accessibility; debugged and maintained live client stores.
